

ASHUTOSH SHARMA

WEB ENTHUSIAST

About Me

I am a web enthusiast. Interested in building high-performance web applications. Experience in setting processes and architecture to optimize app stability and dev experience.

My Work Experience

Housing.com | Engineering Manager Since Nov 2018

MICRO-FRONTEND Nodejs React AWS

Split a large monolith application into small isolated apps that can be executed and deployed separately. Used webpack module federation with custom solutions. Result - No. of releases increased by threefold.

SEO HTML React SSR

Solved SEO related problems, resulting in an increase in valid pages from 3 million to 22.7 million.

FULL-PAGE CACHING Nodejs AWS CWV

Cached SSR generated HTML pages. Implemented solution to invalidate the cache at AWS lambda with support of saving multiple versions of the same page in CloudFront cache. Result - TTFB reduced by 30%
